The Treasurer’s Report was accepted as presented.

Approved Minutes November 28, 2017
BUDGET & FINANCE COMMITTEE:

Vice-President Giles advised that the Budget & Finance Committee met last week with the CFO. He felt that the first review by the Committee had been favorable. A formal vote had not been taken by the Budget & Finance Committee members to recommend the proposed 2018 document.

A second meeting which included the MCRHC Attorney resulted in the decision for Attorney Padula to prepare an opinion letter to address the question of verbiage in reference to the specific methodology used to calculate town assessments across 3 documents: the Town Contracts, the Annual Audit, and an October 2010 resolution setting the Allocation method which Commissioner Nardone has been and continues to be a strong proponent of. His concern is based on clarification/transparency of the method being utilized and a concern over base amounts used for each town beginning with the 2011 budget year. All past Commission attorneys have reviewed this issue to a degree.

Attorney Padula advised Vice-President Giles it was fine to proceed with the budget introduction process.

Going forward an Ordinance should be drawn to standardize/memorialize any resulting determination of this “language” dispute.

PAYMENT OF BILLS:

Theresa Casagrande stated she had a repeat concern in regard to activities invoiced by the Regional Health Educator. She does not find them all to be indicative of the role that MCRHC expected of that position (ex. Facebook, Newsletter, Accreditation Meetings). She should be involved with more face-to-face contact with the public. The Health Officer responded that there are many formats/platforms he is supporting to get our word out.

Vice-President Giles motioned to pay the October 2017 bills in the amount of $149,905.90; motion was seconded by Theresa Casagrande.

GOVERNANCE COMMITTEE: No Report
OLD BUSINESS:

The Health Officer, President Roman, (and the CFO?) held an October meeting with a VNA financial representative. They received 6 months of 2017 town service figures. While this is a valid start, 12 months of figures would serve to provide a better overall picture of actual services/costs.

Three additional towns expressed interest in going through MCRHC to help strike best possible deal for VNA direct pays and to finally create a tangible and equitable basis for nursing services in 2018.

The Health Officer’s goal is to have the PHN position filled no later than early-mid December.

Resolution 2017-28

To authorize purchase of a network server - After review of 2 quotes and recommendation of the Health Officer, Theresa Casagrande motioned to approve the proposal for Lenovo in the total amount of $4,999.00 ($3,775 plus $1,224 for setup/software/labor costs). A question was raised as about the amount to be charged for set up/labor. After a brief comment period, the figure was estimated to be realistic.

Theresa Casagrande motioned to approve the Inter-Networx proposal for a Lenovo server and set up in the amount of $4,999.00, seconded by Mike Natelli.

Proposed MCRHC ORDINANCE 2017-4 – An Ordinance Amending a Code Regulating Food and Beverage Vending Machines and Fixing Fees for Licensing Thereof, and Penalties for Violations Thereof.

We are still waiting on town survey responses and it is being deferred to the next meeting. The Ordinance in question since its inception has only covered a very small number of MCRHC towns. The Health Officer stated that there is currently no public health significance calling for this procedure due to the fact that vending machines no longer house potentially hazardous food. He assured that in the rare case that any Chapter 24 violation was found, it would be addressed by this department.

7 town responses received:
1 approves MCRHC involvement
6 want this kept at the town level or have no interest in licensing at all
OLD BUSINESS (continued)

*IMPORTANT REMINDER:*
November Meeting Date is scheduled for Tuesday, November 28, 2017. Fair Haven and Wall advised they will not be present.

NEW BUSINESS

2018 Proposed MCRHC Health Services Budget
CFO Steve Gallagher

GENERAL
New additions:
Budget Highlights page at front
New worksheet to illustrate Model IV allocation calculations and percentage of cost factor pages 44-45

Commissioner comments: Salary recommendation name detail should be collapsed into a salary adjustment line due to the fact that Union contract negotiations are pending making it clear that publishing this budget detail at this time is premature, bad practice and not guaranteed.

Many towns appear to be above the 2% cap (due to the new nursing allocation) even though Pg. 46 – overall budget assessment went down

CONSORTIUM
Assessment is based on population

The Freehold Area Health Department is only in the MPHC for HE services (decided to no longer use our investigator/Epi but a $9,000 line item has been incorporated to use Freehold’s personnel for more complicated disease investigations). The Health Officer is working to ensure there is no duplication of services.

NURSING
Radical departure from past

Long discussion regarding MCRHC Public Health Nursing provision (what are numbers based on? Commission was advised while there was difficulty in selecting a good way to begin; the base chosen to start allocation for this category is population. CFO needs at least 1 year of collected data (audits, lead, outbreaks, etc.) to switch to an assessment that would utilize workload. Keeping the traditional method until enough data is collected is not an option because the MCRHC nurse now covers all MCRHC towns vs. the original four towns chosen to participate in the pilot program years ago.
BUDGET (continued)

Comments: day sheet tracking (similar to that in place for REHS activity) would be of assistance to determine each town’s need – not getting a good sense from PHN Monthly report.

Bottom line problem: PHN benefit is to varying degrees (very weak info on the proportion of population needing services). Dr. Sullivan expressed the opinion that MCRHC PHN services can best be described as a baseline for availability.

Future projections/goals – to make in-house nursing the lead for all MCRHC and to sign one contract with VNA for all MCRHC towns for supplemental services to be covered

In addition to our PHN, the Health Officer referred to use of the core foundations of Public Health (via the state practice standards) by VNA backup to provide the best, most complete level of service

   VNA 6 Public Health Services that comprise uncompensated care at this point until MCRHC/VNA arrive at a resolution)
   1) Cancer screening
   2) Senior Wellness
   3) IPO Improved Pregnancy Outcomes
   4) DOT TB Direct Observe Therapy)
   5) Lead (nurse case management) – now changing roles
   6) CHC Visits (Child Health Conferences)

Is the VNA actually working in all MCRHC towns? Determination still outstanding, however, VNA data now coming to light shows that they are providing services.

Dr. Sullivan suggested we receive proof that towns are getting these services rather than charging up front and hoping for later backup. Again, this is the first time in many years that we are being presented with specific VNA data.

Keri Pagnoni posed the question – will towns be left uncovered for any period of time while MCRHC PHN position is vacant or if currently uncompensated VNA care is required within a municipality prior to an overall nursing contracts resolution? Both President Roman and the Health Officer assured the Commission that all needed services will be provided.

Note: Red Bank made own arrangement with VNA – may make them exempt from any new group arrangements

This evening’s discussion revealed four driving factors in the 2018 MCRHC Health Services budget
   1) Consortium (less participation by Freehold)
   2) Addition of nursing (assessments for all towns)
   3) Accreditation (proposed consultant hire)
   4) Middletown (changes to contract agreement)
BUDGET INTRODUCTION

Initially the Commission consensus found it unacceptable to introduce budget in its current form. Edits needed to Salary Columns and Highlights page.

REQUEST: CFO review of nursing allocations – Review will be done with the Health Officer.

REQUEST: Spreadsheet with formula detail in regard to specific town assessments for nursing and the Consortium – CFO to provide.

There was a reminder before the vote that legal interpretation of the MCRHC’s allocation method as individuals feel it is/is not incorporated in the budget document is pending.

There would be need to call a special meeting if introduction does not occur tonight.

On the premise that all requested changes are made, Theresa Casagrande motioned to introduce the 2018 MCRHC Health Services Budget, seconded by Vice-President Giles.

The proposed budget (after changes) will be posted on our website.

ACCREDITATION UPDATE: – Deadline date mid-March 2018. PHAB has granted this organization an extension without charge and it is the funds (approx. $4,700.00) MCRHC is not required to spend at this point that would be re-directed toward possible supplemental help. MCRHC has been assigned a PHAB Liaison and has already enlisted this individual in regard to status details of the County CHA and CHIP.

President Roman expressed his feeling that the staff has done an amazing job to this point, but the short time for resubmission is a very real issue going forward.

President Roman previously explained the value and need for dedicated help in the way of a consultant. There have been very introductory conversations with two people who might be able to serve in this capacity. At the September 26th meeting, The Commission chose to entertain this idea. The Health Officer noted at the last meeting that there would also be a certain amount of money available next year while we are still in the extension period. Mr. Henry will write the Request for Proposal.
